

**FINAL REPORT
CITY OF EL PASO DE ROBLES
WATER & WASTEWATER QUALITY CONCERNS – WATER QUALITY
STRATEGY**

TABLE OF CONTENTS

	<u>Page</u>
EXECUTIVE SUMMARY	ES-1
1.0 SUMMARY OF EXISTING WATER/WASTEWATER QUALITY INFORMATION.....	1-1
1.1 INTRODUCTION	1-1
1.2 EXISTING CITY WASTEWATER INFORMATION.....	1-1
1.3 EXISTING CITY WATER SYSTEM INFORMATION.....	1-2
1.4 RECYCLED WATER	1-2
1.5 SURFACE WATER	1-2
1.6 SUMMARY	1-3
2.0 ANALYSIS OF IMPORTING SURFACE WATER: DRINKING WATER AND WASTEWATER QUALITY BENEFITS/IMPACTS.....	2-1
2.1 INTRODUCTION	2-1
2.2 POTENTIAL WATER QUALITY IMPACTS OF INTRODUCING SURFACE WATER TO CITY SYSTEMS.....	2-1
2.2.1 Pertinent Existing Water Quality Parameters	2-1
2.2.2 Water Supply Scenario with Nacimiento Imports	2-2
2.2.3 Imported Water Quality	2-6
2.2.4 Nacimiento Project Water Treatment Alternatives.....	2-7
2.2.5 Water Treatment Plant Modeling Results/Treated Water Quality.....	2-14
2.2.6 Blending Analysis.....	2-18
2.3 EFFECT OF IMPORTING SURFACE WATER ON TREATED WASTEWATER QUALITY AND REGULATORY COMPLIANCE.....	2-24
3.0 ALTERNATIVES COMPARISON	3-1
3.1 INTRODUCTION	3-1
3.2 ALTERNATIVES CONSIDERED	3-1
3.3 EVALUATION CRITERIA	3-7
3.4 EVALUATION OF ALTERNATIVES	3-12
3.4.1 Ranking Methodology	3-12
3.4.2 Evaluation Results	3-12
3.4.3 Alternatives Comparison Matrix and Cost Summary.....	3-31

4.0	RECOMMENDATIONS – WATER/WASTEWATER QUALITY STRATEGY	4-1
4.1	FINDINGS REGARDING IMPORTING SURFACE WATER.....	4-1
4.2	RECOMMENDED ALTERNATIVES	4-2
5.0	REFERENCES	5-1

LIST OF FIGURES

Figure No.	Description
1-1	Location Map
1-2	Northern Segment of Nacimiento Project – Treated Water Alternative
2-1	Population, Water Demand, and Water Supply Sources Over Time
2-2	Schematic of Conventional Treatment (Scenario 1A)
2-3	Schematic of Conventional Treatment Coupled with Post-Filter Adsorber (Scenario 1B)
2-4	Schematic of Microfiltration Treatment (Scenario 2A)
2-5	Schematic of Microfiltration with Post-Filter Adsorber (Scenario 2B)
2-6	Example WWTP Effluent Quality (TDS) Over Time With Surface Water Imports

LIST OF TABLES

Table No.	Description
2-1	Population, Water Demand, and Water Supply Sources Over Time
2-2	Conceptual Design Criteria For Conventional Treatment Plant (Scenario 1A)
2-3	Conceptual Design Criteria For Conventional Treatment Plant With Post-Filter Adsorbers (Scenario 1B)
2-4	Conceptual Design Criteria For Microfiltration Treatment Plant (Scenario 2A)
2-5	Conceptual Design Criteria For Microfiltration Treatment Plant (Scenario 2B)
2-6	WTP Model Predictions For Conventional Treatment Plant (Scenario 1A)
2-7	WTP Model Predictions For Conventional Treatment Plant With Post-Filter Adsorbers (Scenario 1B)
2-8	WTP Model Predictions For Microfiltration Treatment Plant (Scenario 2A)
2-9	WTP Model Predictions For Microfiltration Treatment Plant With Post-Filter Adsorbers (Scenario 2B)
2-10	Selected Additional Raw and Treated Water Quality Parameters for the Four Modeled WTP Scenarios

2-11	Example WWTP Effluent Quality (TDS) Over Time With Surface Water Imports
3-1	Conceptual Cost Estimate of Alternative 4: Participate in Nacimiento Alternative (Raw Water Option) and Treat Water with City-owned Plant
3-2	Conceptual Cost Estimate of Alternative 5: Import Lake Nacimiento Water (Independent of Nacimiento Project) and Treat Water with City-owned Plant
3-3	Conceptual Design Summary of Alternative 7: Desalinate Well Water Supply
3-4	Conceptual Cost Estimate of Alternative 7: Desalinate Well Water Supply
3-5	Conceptual Design Summary of Alternative 9: Desalinate WWTP Effluent to Meet NPDES Discharge Limits
3-6	Conceptual Cost Estimate of Alternative 9: Desalinate WWTP Effluent to Meet NPDES Discharge Limits
3-7	Conceptual Design Summary of Desalination Components of Alternative 13: Desalinate WWTP Effluent for Recharge
3-8	Conceptual Cost Estimate of Alternative 13: Desalinate WWTP Effluent for Recharge
3-9	Approximate Projected Wastewater Production Rates for the Next Twenty Years
3-10	Conceptual Cost Estimate of Alternative 14: Add East Side WWTP (Upstream Reclamation Plant)
3-11	Cost Summary for Alternatives that Address Primary Project Criteria
3-12	Example Boundaries on Annual and Total Payments According to Variations in Interest Rates and Loan Periods

LIST OF APPENDICES

Appendix No.	Description
A	Summary of Existing Water/Wastewater Quality Information – Full Version
