Discussion Item: Grant Proposal Endorsement

Director Partridge presented a staff report asking the Parks and Recreation Advisory Committee to consider endorsing a collaborative effort with San Luis Obispo County Health Department to apply for state funding for a pre teen/teen afterschool program at Centennial Park. The department has also asked for a new and expanded service in the upcoming fiscal year City budget for funding to establish an eastside afterschool program. The SLO County Health Department collaborative grant monies would augment this program with \$20,000 a year for 3 years.

Motion made by Member Berg to recommend the endorsement to the City Council of the SLO County Health Department grant collaboration. Seconded by Member Dotter.

Motion approved unanimously.
