Should a “new” commercial solid waste hauler other than Paso Robles Waste Disposal deliver commercial compacted refuse to the Paso Robles Landfill for thirty (30) consecutive days and the average daily tonnage is equal to or greater than 130 tons per day, the commercial compacted rate shall be decreased without further City Council action to \$25.00 per compacted ton. The decrease shall be implemented as follows:

1. Decrease shall be applied retroactively to the new hauler beginning with the first delivery day; and
2. Shall be applied to all other current commercial compacted haulers, other than Paso Robles Waste Disposal, beginning with the first day of the next calendar month; and
3. Shall be applied to Paso Robles Waste Disposal beginning with the first day of the next billing month and shall be “passed through” to their customers in identical fashion as fee increases.

Should the average daily tonnage drop below the 130 tons per day, the rates shall be returned to the rates first established herein.
