DIRECTOR/MANAGER BUSINESS

3. Development Status Report

Staff reviewed the monthly Development Status Report which includes each development or construction project in the vicinity of the airport. The POS (Parks & Open Space) zoning designation continues to draw discussion relative to future projects that might be considered within that zone – particularly as it relates to a proposed rezone before the City Council on October 3. The consensus of the Committee was that POS zoning was a compatible zoning designation for the airport based on the Paso Robles Airport Land Use Plan but it was their desire to underscore for the City Council the importance of a high level of project scrutiny to assure that new development in POS would not conflict with adopted land use policies (relative to density of people and/or encouragement of residential). A **Motion** by Mr. Rose, seconded by Mr. Miller, to direct Staff to prepare a statement representative of Committee position on the matter for presentation at the City Council meeting on Oct. 3, passes unanimously.

4. Airport Day 2006

Discussed under Sub-committee reports. No further action taken.

5. Fuel Price Survey

Due to technical difficulties, presentation of the survey is deferred to the next meeting.
