

Rides 4 SENIORS

Paso Robles Senior Center, 270 Scott Street, Paso Robles, CA 93446 Phone: (805) 237-3880

Friendly Rides 4 Seniors is a volunteer organization designed to meet the needs of non-driving, homebound seniors in Paso Robles, Atascadero, Templeton, San Miguel, and nearby areas. ***Friendly Rides 4 Seniors*** is organized as a program of the Retired & Senior Volunteer Program (RSVP) of ***Senior Volunteer Services***, a tax-exempt 501c3 nonprofit community service agency.

☺ Operating within a 15 mile radius of Paso Robles

☺ 8:00 AM to 5:00 PM, Monday – Friday

The program targets homebound seniors who need door-to-door assistance to reach doctors' and dentists' offices, and essential services.

Many seniors in North SLO County can no longer drive or afford a car. Public transportation is limited, and many seniors lack family or neighbor support required to access essential services, stay healthy and remain active within the community.

Volunteer drivers, using their own cars, will pick up a senior at his/her home, deliver that senior to the required destination, pick up the senior at an agreed upon time, and return the senior safely home.

Appointments will be made by calling the Paso Robles Senior Center; one week advanced notice is requested.

Although volunteer drivers and autos are essential to conducting the program, there are costs for insurance, safety training materials, and printing. Grants and donations from individuals, organizations and users will fund the service. (\$2,000 Grant received from The Community Foundation.)

Call the Paso Robles Senior Center at 237-3880 for more information on:

☺ Volunteering as a driver

☺ Scheduling a ride

☺ Supporting our program

Providing personal and user-friendly transportation to the growing number of seniors who need it promotes the self-sufficiency of this growing north-county demographic, removing the risks of deterioration that come from isolation and inactivity. In simple terms, ***Friendly Rides 4 Seniors*** provides non-driving, homebound seniors with a friendly, dignified, reliable, and frustration-free way to meet their basic needs and maintain their independence. Perhaps equally important, this approach provides seniors the option of no longer driving if and when they feel it is no longer safe.
