Drought Response: 2016 Update

Conservation Outlook

- August water use projected to be below mandated target
- 3-day per week watering schedule effective August 20th
- Conservation especially important during the summer months, when the most water can be saved (landscape watering)

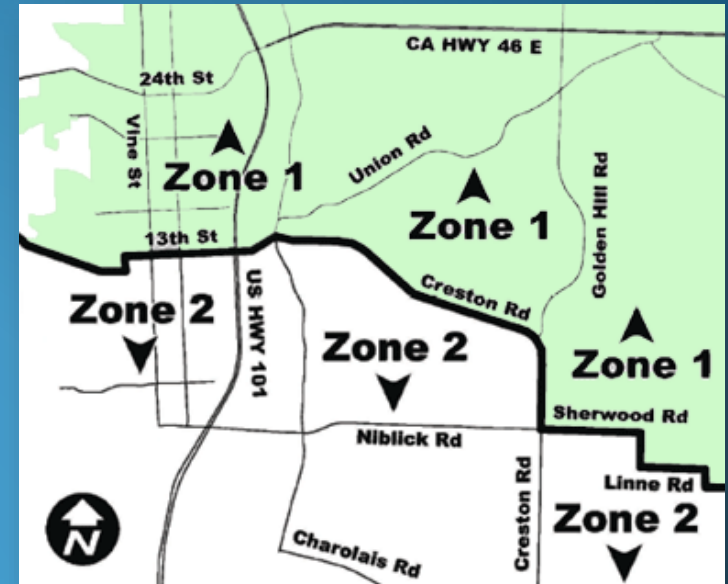

Zone 1

Water Tuesday, Thursday, and Saturday.

Zone 2

Water Wednesday, Friday, and Sunday.

Watering is permitted only before 9AM and after 7PM on your assigned days.
