

City of Paso Robles – DPW 17-17
West Side Slurry Seal Project

Digout Areas Prepared for Paving

Rollers Compacting the New Asphalt

Crew Raking Hot Asphalt

Crew Working Their Way Down the Road

Digout repairs for the West Side Slurry Seal Project finished up this week. A final Type II slurry seal surface will finish out the project this summer. This project will maintain thirty three (33) street segments on the west side of Paso Robles. (5-10-2018)
