DISCUSSION

1. Highway 46 East Circulation Issues and Options

The City Council conducted a workshop, with presentations on the history of Highway 46 east, development potential in the City's northeast quadrant, progress to date on the Highway 46/Union Road interchange, and an update of the City's circulation element to reflect progress and plans for the parallel routes and other changes.

Several citizens took advantage of the opportunity to receive the presentations, ask questions, and provide input to the Council.

The Council then provided some initial direction to staff and requested staff return to Council within the next 60 days or so with proposals for moving forward. No substantive decisions were requested or made. The Council requested continued collaboration with SLOCOG; directed staff to develop plans for working with Caltrans to successfully address outstanding issues, and requested that the Housing Constraints and Opportunities Task Force be provided an update and ensure its work on Development Impact Fees is coordinated with these efforts.

ADJOURNMENT. By voice vote, the study session was adjourned at 8:12 p.m.
